

We are looking for you!

## JavaScript Frontend-Developer (m/f/o)

We develop our core technology Cadenza with enthusiasm and creativity, including a variety of individual Cadenza-based solutions to conquer the market. Our heart beats for data with spatial reference. We are breaking new ground by combining methods from the GIS and BI world and therefore creating revealing insights for conclusive decision-making.

### What we expect from you

- Several years of experience in development and design of modern web applications.
- You identify with the user and have a passion for appealing and intuitive user-friendly interfaces.
- You are an expert in JavaScript (ES2015 appreciated) and well-acquainted with browser APIs.
- You have an active self-interest in keeping yourself up to date and purposefully use our monthly training day for further studies.

### Interested in joining us? A great decision!

Apply online or send your documents to [karriere@disy.net](mailto:karriere@disy.net). For a first impression we need your CV with the relevant stages of your vocational training and previous career path including the corresponding certificates and references.

We look forward to hearing from you!
